WALL TILES
25x37.5 CM (10"x15")

New Style For Wall

Company Profile

Welcome to **Raj** where you can find the ingenious sharp vision, global network and powerful backbone. The company carries the vision to be the global ceramic company most admired for its People, Product and Performance. It believes in producing superior quality glazed tiles with a sharp vision on market. It takes a lot of skills to design and manufacture in a competitive market.

Raj has installed latest machinery and advance technology. So, now both are quality and service.

The company has huge production capacity which falls in line with high European standard. The Company has in- house R&D department, wherein continuous research is done in design and quality of glazed tiles, in order to provide value for money to our customers.

The company has well - established dealer network throughout the whole country and it has marked its presence in export market countries. The company promise to deliver quality in everything they do, right from raw material purchase to stage wise quality control, to final inspection to every support functions like dispatch and accounting. The company will strive to improve quality by plugging the reasons for mistakes and quality fall. In doing so we will respect the environment and support community upliftment too.

By doing so the company will naturally not just meet but beat the customer's expectations. We will surely be the most admired brand by our actions for the society in every aspect.

WALL TILES

Some wall tile glazes, particularly the more specialized effects used to create surface features and strong colours, are subject to crazing. This aspect is an inherent characteristic of the glazes and many occur after fixing but will not affect the performance of the tiles. Non-spacer tiles should be spaced by the use of readily available spacer pegs.

HIGHLY DECORATIVE TILES.

Care should be taken during installation and grouting to avoid damage. Abrasive cleaners and strong chemicals, which may harm the decoration, should not be used.

COLOURED GROUTS.

If coloured grouts are used then the manufacturer's instructions for use should be carefully followed. A trial area should be grouted before proceeding with the whole tiled area to check whether any staining of the tiles occurs. Our accepts no liability for staining or damage to tile surfaces incurred during grouting of the tiles. Generally the use of such grouts is not recommended with satin or Matt Glazed Products

GROUTING AND CLEANING.

Care should be taken during installation, particularly when grouting. To avoid scratching the glazed surface. Abrasive cleansers and strong chemicals that may harm the decoration should not be used.

FIXING LARGE FORMAT WALL TILES.

The large format wall tiles require spacing by the use of proprietary tile spacers. Nominal joint widths of 2 to 3 mm are recommended to ensure that the modular co-ordination is maintained. All backgrounds must be dry, flat and free from surface contamination. New backgrounds must have been allowed to dry for the appropriate length of time prior to the commencement of tiling. The background should be sufficiently strong and rigid to support the weight of the new tile work. Friable or weak backgrounds should be made good prior to tiling. Appropriate advice as to the suitability of walls in respect of tiling should be sought from a qualified person before commencing tiling. This is particularly important if the new tile work is over existing tiling. It is important that an appropriate adhesive is used which suits the particular wall background and service conditions. Our Tiles recommends that water resistant adhesives are used for wet areas and grouted with a water impervious grout.

CUTTING LARGE FORMAT WALL TILES.

The high quality white body of the Our Tiles large format wall tiles can be cut, shaped and drilled in the same manner as the smaller format wall tiles. The use of a heavier gauge floor tile cutting tool is used to facilitate the cutting process due to the thicker Gauge of format the wall tiles body. For intricate shaping and cutting. Color Tile recommended the use of wet diamond wheel cutting machine.

HANDLING LARGE FORMAT WALL TILES.

Large Format wall tiles are heavy and particular care should be taken when lifting and handling the tiles to avoid injury. Any carton banding used to stabilize to carton whilst in transit should be removed prior to lifting and opening the cartons. The transit banding should not be used to lift The Cartons.

TILES SIZES.

All sizes given in this brochure are nominal sizes quoted as the nearest metric modular size. All dimensions are in millimeters. For details of actual work sizes please refer to the Product detail given on the carton.

IMPORTANT.

During the course of manufacture of all ceramic tiles some variation in shade in shade of pattern can occur. Before fixing wall tiles several cartons should be opened and their contents mixed to provide an attractive natural finish, an acceptable color blend and to observe the direction of patterning. Before laying floor tiles several cartons should be opened and the contents mixed to ensure that the size, shade, colour and patterning are acceptable.

Our Tiles can not accept any liability for wall and floor tiles that have been fixed. Every effort has been made to ensure the accuracy of the information given in this brochure. In the interest of progress, however Our Tiles the right to change Specifications and availability with out prior notice. The own shown on the tile Products in this brochure are as accurate as the limitations of the printing processes with allow. Please refer to actual product samples before purchasing.

TECHNICAL SPECIFICATION

CHARACTERISTICS	EURO STANDARDS EN - 159 / IS 13753	OUR VALUE
DIMENSION & SURFACE QUALITY		
1. Dimension & Surface Quality	+ 0.5 %	+ 0.3%
